Letter of Reference

To Whom It May Concern:

It is with great relief and happiness that I am writing this letter where Logistics Plus team members helped our company completed the shipment clearance and delivery to various Distribution Line sites in Uganda since January 2018.

The contribution and dedication of their team has been worthy of special praise.

The importation into Africa can be complicated. This is especially when oversea vendor paperwork is late with errors, shipment arrived without PVOC, or duty exemption being delayed from authority along with many other type of unexpected challenges. However Logistics Plus team constantly stand by our side and worked out solutions to ensure minimum impact to our project date line.

We will not hesitate to recommend their services to those who need reliable and honest logistics services provider.

Yours faithfully,

Ceylex Engineering (Pvt) Limited

K.A. Weeraratne
Project Manager
